ADD A THIRD BOX CONFIGURATION

There are many customizations that can be added to the design of our homes. With your builder, adding more square footage, garages, and porches on site is always an option. All of these are popular ideas when building a home and we have designed modules, or boxes, to specifically tackle several of these at once. These modules can be added to many of our floor plans and with this one addition, space for an extra bedroom, office, or even workout room can be added. Along with extra interior space, front porch additions can be added for a dramatic change in curb appeal as well as adding an outdoor living space.

BED BATH UNIT A: OP2003R

BED BATH UNIT B: OP2004R

We have designed modules specific to getting more bedrooms and bathrooms in a home. These are especially appealing when added to one of our two story floor plans. Many people have used the bedroom addition modules for adding a main floor master suite or an in-law suite. Finally, we have a living room module that can be added to the side or back of almost any of our designs for additional living/family room. All of these additional boxes will enhance the dimension to a home creating a stunning exterior.

WHAT IS A ROOF RETURN?

Roof returns are an option on some of our gables and bump outs, a familiar term for these are eyebrows. The shingled line of the roof shown on the left is a good example. A roof return can be used to add decoration to a gable or as a break between a change in exterior façade.

GABLE VS SHED

We offer two roof profiles on our dormers and bump outs. A gable style roof, where the roof lines come to a peak at the front, can be used to accent a traditional, transitional, or Victorian style home.

A shed roof is a low sloped roof that moves in the same directions as the main roof line of a home. Most people use shed roofs to provide a craftsman, transitional, or even modern look.

WHY YOU SHOULD ADD DORMERS

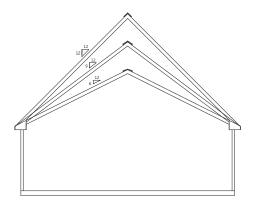

Adding one or more dormers to a roof's structure can turn a rather bland roofline into one with architectural interest and curb appeal. Not only do dormers improve the aesthetics of a home, but this upgrade will also make a home more appealing to buyers. When added to a home, dormers provide much-needed natural light and another view of the outdoors. Adding a large dormer will increase the usable space of a room. They are perfect spots for a reading nook, small office space or a kids' play area.

BENEFITS OF A HIGHER ROOF PITCH

STARTING WITH 6/12

All of our 2 box standard ranch homes begin as a 6/12 roof pitch. Upgrade to a 9/12 or a 12/12 roof pitch to take advantage of exterior options such as a higher roof pitch and the ability to add dormers.

Non Habitable 9/12 with 3/4 deck and 2x6 attic endwalls with R25 insulation under floor. (habitable option available)

Habitable 12/12 with 3/4 deck and 2x6 endwalls. R30 insulation under floor

ATTIC SPACE & LIVING SPACE

A higher roof pitch encourages the development of larger attic spaces that are terrific for seasonal or long-term storage. The best part? This storage room often has very minimal installation expenses, as the space is already there. Depending on the pitch, there may even be enough space to convert this area into a functional living space. Many higher pitched roofs have windows installed for added natural light in the attic area.

EXTERIOR APPEAL

Many people adore homes with a higher roof pitch because they offer more visibility to a roof. A roof with a low pitch is usually not visible from ground level. A higher pitch can play a significant role in adding curb appeal to your home. These roofs make a home look more ornate and prominent from the outside. They also allow for the addition of decorative caps, inventive designs, and gables to your building. Higher roof pitches can turn a simple architectural style into a more visually complex one with just a few finishing touches.

KNOW YOUR WINDOWS

SINGLE HUNG

Single-Hung windows allow ventilation through a single operable lower sash.

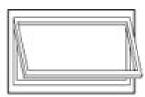

DOUBLE HUNG

Double-Hung windows have two operating sash that move up and down allowing for ventilation on the top, bottom or both.

A window above a door that is usually installed to a horizontal crosspiece over the door.

*View from outside

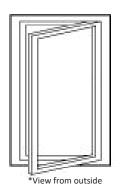

AWNING WINDOW

Awning windows are hinged on the top and open outward from the bottom, allowing for ventilation and protection from the rain. Often placed higher on walls for privacy or in combination with large stationary windows for a better view.

CASEMENT WINDOW

Casement windows are hinged on the side and crank open outward to the left or right allowing for full top to bottom ventilation.

Standard above kitchen sinks, casement windows give you the flexibility to group them in stunning combinations.

ADVANTAGES TO UPGRADING TO QUARTZ

We offer two countertop materials. Laminate countertops are a wood-based counter with a laminated print for a surface. A laminate countertop offers great affordability and has many styles to choose from. We choose to build our homes with a post form, rolled edge laminate top so that there are no seams from the front of your countertop all the way to the backsplash, which prevents damage from water penetrating seams or from physical damage to the top. If you choose to upgrade to a solid surface countertop, we move straight to the hardest top in the industry. Quartz is a manufactured product that has grown in popularity because of its durability, lack of need for major time in upkeep, and beautiful, eye-catching designs.
